Vision Statement

The compelling picture of the future state

Meridian Group

Programme Helios — Infrastructure and Platform Stack for AI GPU Compute at Scale

Field	Detail
Document title	Vision Statement
Document reference	MSP-03-HEL-T2-v1.0
Project / Programme	Programme Helios
Version	1.0
Status	Baselined
Date	18 Sep 2026
Author	D. Okonkwo, Programme Manager
Owner	Senior Responsible Owner
Approver	Sponsoring Group
Classification	Internal
Retention	7 years from programme closure

Document control

Version history

Version	Date	Author	Summary of change
0.1	04 Jun 2026	D. Okonkwo, Programme Manager	Initial draft
0.2	21 Jul 2026	D. Okonkwo, Programme Manager	Updated following workstream lead review
1.0	18 Sep 2026	D. Okonkwo, Programme Manager	Baselined at the Tranche 2 funding gate

Reviewers

Name	Role	Review scope	Date reviewed
T. Nakamura, Chief Platform Architect	Chief Platform Architect	Technical content and solution alignment	08 Sep 2026
L. Haddad, CISO	CISO	Security, assurance and residency content	10 Sep 2026
C. Whitfield, Finance Business Partner	Finance Business Partner	Cost, funding and benefit figures	11 Sep 2026
M. Verity, Head of P3O	Head of P3O	Governance standards and completeness	15 Sep 2026

Approval

This product is baselined once approval is recorded below. Any subsequent change must go through change control.

Name	Role	Decision	Date
R. Al Mazrouei, Group CTO	Senior Responsible Owner / Group CTO	Approved	18 Sep 2026
H. Farrell, Director of Infrastructure	Director of Infrastructure	Approved	18 Sep 2026
L. Haddad, CISO	CISO	Approved subject to closure of ISS-003	18 Sep 2026

MSP-13	Stakeholder Engagement and Communications Plan	Vehicle for communicating the vision

How to use this template

Aspect	Guidance
Purpose	Describes the future state after the programme has delivered, in terms that engage and align stakeholders across the affected organisation.
Framework	MSP — Outline in Identify the Programme; refined in Define the Programme
Created when	Identify the Programme
Reviewed / updated	At each tranche boundary — it should remain stable
Owner	Senior Responsible Owner
Approver	Sponsoring Group
Format options	Typically one page. It is a communication instrument, not a specification.
Tailoring	Scale the depth of each section to the scale, risk and complexity of the work. Delete sections that add no value and record the tailoring decision in the governance approach.

This is a worked example. Every field has been completed with illustrative content for Programme Helios, a fictional AI GPU infrastructure and platform programme. All example content is shown in grey italic — the black text is the template itself. Replace the grey italic content with your own.

Quality criteria

Use these to check the product is fit for purpose before submitting it for approval.

- Written as a future state, in the present tense
- Free of jargon, targets, and solution detail
- Describes the change from the perspective of those who will experience it
- Short enough to be remembered and repeated

6. Endorsement.....6

1. Vision statement

The statement itself. Keep it to a paragraph or two. Write it so that a person affected by the change would recognise their own future in it.

By the end of Tranche 3, Meridian Group operates a single multi-tenant AI compute platform of 4,096 accelerators across DXB-1 and AUH-2. Researchers self-serve a working training environment in under two hours, distributed jobs run at 92% collective efficiency, every tenant sees its own consumption and cost, and no training workload requires a data residency exception.

2. What will be different

Stakeholder group	Today	In the future state
Funded from the Tranche 2 allocation of AED 118,000,000	Assured independently by Cordant Assurance	Complete
Assured independently by Cordant Assurance	Funded from the Tranche 2 allocation of AED 118,000,000	Not started
Reviewed at each PI boundary by the Release Train Engineer	Subject to closure of ISS-003 before multi-tenant go-live	Open
Covers the 2,048-GPU estate and the parallel filesystem tier	Delegated to the Programme Manager within the agreed tolerance	In progress

3. What will not change

Reassurance is as important as aspiration. State explicitly what is being preserved.

Programme Helios — Tranche 2 scale build, DXB-1 halls A and B. Aligned to the strategic theme of sovereign AI capability. Detail is maintained by the Senior Responsible Owner and reviewed at the monthly Programme Board.

4. Alignment to strategy

Strategic objective	How the vision supports it
AED 96,000	Dashboard published to the programme site
AED 4,200,000	Workshop with the affected workstream leads
AED 91,200,000	Automated report from the observability platform
AED 1,120,000	Written pack circulated 48 hours in advance

5. Guiding principles

The principles that will govern decisions when trade-offs arise during delivery.

Four principles govern this area on Programme Helios: decisions are taken at the lowest level that holds the necessary information; security participates in design rather than reviewing it afterwards; anything that cannot be measured is not claimed as a benefit; and physical work is frozen before it is ordered.

6. Endorsement

Role	Name	Endorsed	Date
Senior Responsible Owner	<i>R. Al Mazrouei, Group CTO</i>	<i>R. Al Mazrouei, Group CTO</i>	<i>R. Al Mazrouei, Group CTO</i>
Sponsoring Group chair	<i>R. Al Mazrouei, Group CTO</i>	<i>R. Al Mazrouei, Group CTO</i>	<i>R. Al Mazrouei, Group CTO</i>
Business Change Manager(s)	<i>A. Kowalski, Data Centre Lead</i>	<i>25 Jun 2027</i>	<i>18 Sep 2026</i>
